

*"Whimsy is what's on the menu, and it is served piping hot in ten short stories." - Phil Soletsky,
Tangent Short Fiction Review*

Andromeda Spaceways Inflight Magazine

"Australia's Pulpiest Science Fiction and Fantasy Magazine!"

www.andromedaspaceways.com

Since its inception in June of 2002, Andromeda Spaceways Inflight Magazine (ASIM) has published nearly three-quarters of a million words of fiction by established and emerging writers from all over the globe.

ASIM has devoted much of its print space to stories that are 'ripping good tales' that leave a smile on the reader's face. However, ASIM is never afraid to publish stories that touch one's heartstrings or chill one's spine.

ASIM began with the tongue-in-cheek conceit that this magazine would be the one found in the seat-back pouches on the intergalactic flights of the various space-liners owned by the Andromeda Spaceways Corporation. In real life, Andromeda Spaceways is found in bookstores, libraries, and through its thriving subscription service.

Published on a bi-monthly schedule, each issue of this popular science fiction & fantasy magazine contains over 40,000 words of fiction, articles, interviews, reviews and editorial. Andromeda Spaceways has an enviable reputation for regularity and will soon be publishing its 18th issue.

Andromeda Spaceways Inflight Magazine appeals to a wide variety of readers who love to read fiction and would be a valuable addition to your library. The staff and editors feel that Andromeda Spaceways is not only unique in Australia, but unique in the world.
